

It's Bacteriostatic!
Bacteria cannot grow or survive in the filter media

Small enough to fit in your pocket, effective enough to reduce water contaminants for up to 6 months.

The World's water supply, according to National statistics from different publications and Government studies, shows all water is contaminated in some way. Therefore, for the consumer the only safe way to have clean water is by utilizing some form of water filtration.

Freedom Sip Defence™ is a revolutionary new "IONIC WATER PURIFICATION SYSTEM" you can carry with you anywhere. It's truly an amazing water purification system in a straw.

Freedom Sip Defence™ comes with it's own unique carrying case to hold and protect the straw between uses.

Freedom Sip Defence™ is available in a variety of colored mouth pieces, such as red, yellow, blue, green, white, black, pink, orange, etc., making it identifiable and personal. Now every member of the family can have their own special water filter in a straw. It's perfect for people on the go. Carry Freedom Sip Defence™ with you wherever you go and drink fresh, clean water anytime. It is just a Sip away!

Great for TRAVEL, CAMPERS, RESTAURANTS & OFFICE
FREEDOM SIP DEFENCE™ is truly a PERSONAL, PORTABLE water filter in a straw!

WATER is Essential for LIFE

"Give Water a Try and Become Your Own Healer."

Dr. F. Batmanghelidji MD

"Understanding dehydration will empower you to become much healthier and you will be able to become your own healer."

"The human body is composed of 25 percent solid matter and 75 percent water. Brain tissue is 85 percent water. When we starve body cells of water, they start to complain - and may set up adverse reactions."

"Dry mouth is not the only sign of dehydration and waiting to get thirsty is wrong. Pain in the body is a crisis call of the body for water. Thirst should be prevented. When the body does not receive enough water and you have pain, that is a sign of dehydration."

"Once you understand how the human body works, the wonderful simplicity of water as a free and permanently available choice of medication for so many health problems begins to make sense."

Dr. F. Batmanghelidji MD

A gift that really keeps on giving!

Drink Fresh,
Clean Water...
Wherever You Go!

Freedom Sip Defence™

Mouthpiece
Micro Filter
Activated Charcoal
Patented Media

Freedom Sip Defence™ uses the latest **STATE-OF-THE-ART** technology in water filtration. It uses a combination of three micro filters, activated charcoal and a patented, high purity metal alloy containing two dissimilar metals (containing positive and negative charges), that once wet, creates an **'ELECTROSTATIC CHARGE'** that attracts contaminants and 'electroplates' them onto the media through a process called **'Electro Chemical Oxidation Reduction'**.

This combination of filters and technology is very effective and helps reduce contaminants in water. Freedom Sip Defence™ is not intended for use with any other types of liquids. Do not use with sodas, juice, alcohol, coffee, tea, or flavored waters.

Freedom Sip Defence™ reduces such heavy metals as lead, mercury, hydrogen sulfide aluminum, arsenic, fluoride, cadmium and barium, in addition to chlorine, algae, fungus, scale, sediment, and E-Coli.

It's As Simple As A
Sip Through A Straw!
It's Long Lasting Too!

The **FREEDOM SIP DEFENCE™** straw will treat approximately five 8 ounce glasses of water a day for up to four to six months depending on the condition of the water.
